## Centrifuge Systems, Inc. – Senior Software Engineer

***Centrifuge Systems, Inc., a venture-backed software company in McLean, VA, seeks a Senior Software Engineer to join its rapidly growing team.***

Centrifuge Systems is a leading provider of next generation business intelligence software. Our groundbreaking approach, called Interactive Analytics (IA), brings together three modern innovations in analysis: Interactive Data Visualization, Unified Data Views, and Collaborative Analysis. Through the convenience of your browser, you can connect to data, explore it, and collaborate with others.

Born out of the US Intelligence Community, Interactive Analytics is being applied to national security problem domains such as homeland defense and cyber crime, and it has recently been introduced into the commercial business intelligence market. This technology helps organizations of every kind understand and reveal key non-obvious relationships in their data.

**Position Overview:** The Senior Software Engineer will report directly to the VP of Engineering and will be responsible for designing and implementing products and features for the Centrifuge product suite. The Senior Software Engineer often works independently but also collaborates with the Chief Architect and other engineers to complete projects in a timely manner.

**Job responsibilities** include but are not limited to:

- Designing and developing products, tools, and features for the Centrifuge product suite
- Automating and otherwise improving development and testing facilities
- Researching and providing input on “build versus buy” decisions
- Working with CTO, VP of Engineering, Chief Architect, Director of Product Management and others to help shape product vision
- Providing advanced technical support to groups inside the organization and to customers

### **Qualifications:**

- Advanced working knowledge of and demonstrated experience with Java
- Working knowledge of web technologies and protocols
- Demonstrated organization and communications skills
- Familiarity with Adobe Flex and Linux

### **Preferred:**

- US Citizenship
- College degree
